

53' Husky-Stack®

The 53' Husky-Stack® is a high capacity, single-unit double-stack well railcar. It is ideal for lanes where heavier container loads are prevalent. The Husky-Stack carries containers from 20' to 53' long in each well and can handle containers from 40' to 53' long in the top position. It may be operated as a single railcar or be configured as a multiple-unit drawbar railcar.
