Overview

Greenbrier's Cleburne, Texas facility is a full-service railcar repair and maintenance center, strategically located with direct BNSF rail access. This facility specializes in servicing a wide range of freight car types, including boxcars, tank cars, hoppers, gondolas, flatcars and auto racks.

Equipped with M-1002, M-214 and M-1003 certifications, this location offers wreck work, bad order maintenance, fleet programs, non-destructive testing, welding, coating and cleaning services. With a storage capacity of 350 railcars, the facility is designed to meet the demanding needs of rail operators with precision, efficiency and reliability.

The Greenbrier Companies

The Greenbrier Companies is a leading manufacturer and service provider in the rail industry, designing and building high-quality freight railcars while offering leasing and management services. Beyond manufacturing, Greenbrier provides wheel services, railcar components and a nationwide repair network to keep railcars in peak condition. With a reputation for quality, reliability and innovation, Greenbrier continues to drive the future of rail transportation.
